Client Profile Form test

Test Steps:

1. Navigate to the client profile form page.
2. Enter a name and email address.
3. Enter the prefix and check if the phone number has enough digits space.
4. Enter a date of birth in the dd-mm-aaaa way.
5. Enter an address
6. Select the country.
7. Select the state.
8. Select the individual checkbox
9. Enter the income
10. Select the checkbox besides I agree to the terms and conditions
11. Click to submit.
12. Check if it shows the "Client created successfully!" message.

Expected Results:

1. The system should display an error message indicating that personal email domains are not allowed.
2. The registration or invite process should not proceed.

Test Data:

Name: Gabriel
Email address: gabriel@email.com
Prefix: +55
Date of birth: 09/06/2003
Address: Rua Exemplo, 123, Sorocaba, SP
